

General Feature Code list -

These codes are just general codes for general functions. The * code will be followed by either a \surd or the *ok* button depending on the handset used.

*72	Call Forward Activate
*73	Call Forward De-Activate
*78	DND Activate
*79	DND Deactivate
*0	Speed dial prefix
*97	My Voicemail (<i>Password</i> is extension number)
*8	General call pick-up from another ringing extension
*65	Speak your extension number
*60	Speaking clock

To personalise voicemail per extension use the *97 function and choose option 0. Follow prompts.

For more detailed feature codes, please contact your VBX Product Engineer.
